DHARMENDRA BAGHELE

Fresher Software Engineer

To obtain a challenging position as a MERN Stack Developer where I can apply my foundational skills in MongoDB, Express.js, React.js, and Node.js to develop dynamic and scalable web applications. Proficient in building RESTful APIs, designing responsive UI with Tailwind CSS, and integrating frontend with backend services. Eager to grow professionally and contribute to innovative projects within a collaborative and agile team environment.

Context API   Tailwind CSS   React Hooks

Bootstrap   HTML   CSS   JavaScript

Redux   OOP   Core Java   Git   TypeScript

REST Full API   Collection framework

PERSONAL PROJECTS

Notebook

- A full-stack **MERN web application** that allows users to **create, edit, delete, and view personal notes** after secure login using email and password.
- It features full **user authentication and authorisation** using **JWT**, and **password encryption** with **bcrypt**. The application has a **responsive UI**, and users can manage their notes securely in a personalised dashboard.
- This Project provides **create,view, edit and delete notes** functionality
- Implemented backend using **Node.js**, **Express.js**, and **MongoDB**, and created responsive frontend using **HTML**, **CSS**, and **JavaScript** to ensure seamless user interaction.

NewsApp

- Developed a responsive and dynamic single-page news application using **React.js** that fetches and displays real-time news articles from **NewsAPI** .
- Implemented reusable components, props-based data rendering, and clean UI structure to display news by category such as business, sports, technology, and entertainment.
- Fetches real-time news articles using **fetch()** or **axios**
- Designed and implemented the entire frontend using React
- Integrated **NewsAPI** to dynamically render news data

CERTIFICATES

Basic Web Development Certificate from Masai
Completed foundational training in HTML, CSS, JavaScript, and responsive web design. Gained hands-on experience in building basic web pages and user interfaces.

Java Basic Certificate From Great Learning
Completed a beginner-level course covering core Java concepts such as OOPs, classes and objects, inheritance, polymorphism, exception handling, and basic file handling. Built small programs to strengthen practical understanding.
